

CLASS OF 2025

Commencement

30 APRIL 2025

COLLEGE OF PROFESSIONAL STUDIES

CONTENTS

This program is for ceremonial purposes only and is not to be considered an official confirmation of degree information. It contains only those details available at the publication deadline. Please note that not all graduates' names are listed, as some students opt out of having their names appear in Northeastern publications.

A UNIVERSITY ENGAGED WITH THE WORLD

THE HISTORY OF NORTHEASTERN

Founded in 1898, Northeastern is a global research university, the recognized leader in experiential learning, and renowned for its innovative approach to education. Yet it had humble beginnings.

At the end of the 19th century, immigrants and first-generation Americans constituted more than half of Boston's population. Chief among the city's institutions committed to helping those new to the country improve their lives was the Boston YMCA, where young men gathered to hear lectures on literature, history, music, and other subjects considered essential to intellectual growth.

In response to the enthusiastic demand for these lectures, the directors of the YMCA organized the "Evening Institute for Young Men" in May 1896. Frank Palmer Speare, a well-known teacher and high-school principal with considerable experience in public schools, was hired as the institute's director. Two years later, under Speare's direction, the YMCA advertised the creation of the "Department of Law of the Boston YMCA," and on October 3, 1898, Robert Gray Dodge taught the first class. The program, an immediate success, marked the birth of Northeastern University. Speare would later remark, "We started with an eraser and two sticks of chalk."

When demand for other courses grew, Speare moved to add more programs, and in 1909 the full-time day colleges began instruction. That same year, the Evening Polytechnic School announced "cooperative engineering courses," in which students would have an opportunity to apply classroom knowledge in the workplace—the beginning of Northeastern's signature cooperative education program.

Decades of expansion

The school continued to grow, and in 1922 the College of Business was founded. More space was needed. The university purchased the former home of the Boston Red Sox in 1929, and in 1934 the Boston architectural firm Shepley, Bulfinch, Richardson, and Abbott was awarded the contract to design Richards Hall. Using what was to become the campus signature—white brick—Shepley, Bulfinch presented plans for a neoclassical building. Opened in 1938, Richards Hall was the first building to appear on the front quadrangle.

As the campus grew, so did Northeastern's programs. In 1935, the College of Liberal Arts was added, signaling that Northeastern was on its way to becoming a major university.

When Speare stepped down as president in 1940, he was replaced by Carl Stephens Ell, dean of the College of Engineering. It was under Ell's leadership that Northeastern first admitted women to full-time day programs.

In the postwar world, Northeastern, like its peer institutions, saw a phenomenal increase in the number of people attending college. The university expanded its programs to accommodate this growing population of increasingly diverse students. In rapid succession, additional programs and colleges were established: College of Education, 1953; University

College, 1960; College of Pharmacy, 1962; College of Nursing, 1964; Boston Bouvé College, 1964; College of Criminal Justice, 1967; and College of Computer Science, 1982.

This expansion of programs brought with it a need for more buildings—and land. When Ell retired as president in 1959, he was succeeded by Asa S. Knowles. Under his leadership, suburban properties in Weston, Nahant, and Burlington were acquired. The Boston campus blossomed with new buildings, including various undergraduate dormitories designed to accommodate the increasing number of residential students at what had been primarily a commuter campus.

Transforming the Boston campus

When Knowles retired in 1975, he was succeeded by Kenneth G. Ryder, who had begun his career at Northeastern as a member of the history department and had risen through the ranks to become executive vice president before his election as president. Under his leadership, the university expanded and enriched its programs, particularly in the arts and humanities, and continued to improve its facilities. Plans for the Snell Library were finalized during Ryder's tenure, and the campus was beautified. During these years, Northeastern also deepened its commitment to Boston and its neighborhoods.

In 1989, Ryder stepped down as the fourth president of the university. He was succeeded by John A. Curry, Northeastern's executive vice president and its first alumnus to become president. With President Curry in charge, the university embarked on a series of ambitious undertakings, including a new science and engineering research center, a state-of-the-art classroom building, a recreation complex, and several new graduate and undergraduate programs.

To support these new ventures, Curry led Northeastern in a successful fundraising campaign. His years of leadership also featured significant restructuring as the university prepared to enter its second century. In June 1996, after four decades of service, Curry retired from Northeastern. To succeed him, the trustees elected Richard M. Freeland as the university's sixth president.

Elevating experience

A distinguished historian and administrator, President Freeland brought to the university a renewed sense of energy and mission. His programs were designed to support his vision of Northeastern as a university that would be student-centered, practice-oriented, and urban. Northeastern developed the West Campus with architecturally acclaimed residence halls and teaching facilities for the health sciences and computer science, and added new spaces to enrich student life on campus.

When Freeland stepped down in 2006, he was succeeded by Joseph E. Aoun, an internationally known linguistics scholar. Northeastern's seventh president came from the University of Southern California, where he served as dean of the College of Letters, Arts, and Sciences. President Aoun developed an academic plan outlining the university's vision in several areas: experiential learning, global outreach, use-inspired research, urban engagement, and intellectual life. He greatly expanded global co-op opportunities. He also aligned the university's research with three worldwide imperatives—health, security, and sustainability—with a focus on interdisciplinary solutions.

A rising global profile

Under Aoun's leadership, Northeastern launched a system of campuses designed to be platforms for lifelong learning aligned with area economies. The first two opened in Charlotte, North Carolina (2011), and Seattle (2013). Additional campuses followed in Silicon Valley, California (2015), and in Toronto (2016).

In 2016, Aoun led the development of a new academic plan, Northeastern 2025. The plan was a blueprint for transforming the university into a global university system—featuring networks of learners and innovators—designed to empower people to succeed in this era of unprecedented technological change. Accordingly, the university expanded the role of its global campuses to serve as platforms for learning, research, and industry partnerships. In 2019, it opened another location in Vancouver and acquired New College of the Humanities in London, now officially Northeastern University London and offering undergraduates a unique opportunity to earn a dual U.S./U.K. degree. Later in 2019, Northeastern launched a research campus in Arlington, Virginia, an addition to two existing research campuses in Nahant and Burlington, Massachusetts (formed in 1967 and 2012 respectively).

Then in January 2020, technology entrepreneur David Roux and his wife, Barbara, made an investment in the university to open the Roux Institute in Portland, Maine. The institute focuses on graduate studies and research in fields such as AI, digital engineering, and advanced life sciences, amplified by industry partnerships. It was specifically designed to be a model of how higher education can ignite economic development in regions of the country largely bypassed by the innovation economy, setting a new bar for what the global university system could achieve.

Resilience and momentum

The same revolutionary vision for global learning and discovery that inspired Northeastern 2025 infuses the university's latest academic plan, Experience Unleashed. The plan is designed to deepen the impact of Northeastern's global network by maximizing the power of experience to understand and solve the world's interconnected, ever-evolving challenges.

In 2022, the university took a significant step in realizing the potential for its global system by merging with Mills College in Oakland, California, becoming the first university with comprehensive residential campuses for undergraduate and graduate students on both U.S. coasts. In 2023, Northeastern opened a campus in Miami, with graduate education and innovation partnerships aligned with South Florida's economic growth. The following year, the university announced the addition of a campus in New York City through a merger with Marymount Manhattan College.

Thanks to the dedication and hard work of our university community, Frank Palmer Speare's "eraser and two sticks of chalk" have evolved into one of the world's most innovative universities. Our faculty collaborates more fluidly with experts across industry, government, and community-based organizations. Ideas and solutions can be scaled. And our students are empowered to be true global citizens, scientists, entrepreneurs, and creators—prepared to make an impact wherever they go.

PROGRAM

MATTHEWS ARENA, BOSTON
TEN O'CLOCK A.M. and THREE O'CLOCK P.M.

Prelude

Invocation

Alexander Levering Kern
Executive Director of the Center for Spirituality, Dialogue and Service

The National Anthem

Magali Feruzi
Associate Dean of Student Affairs, College of Professional Studies

Welcome to the Graduates

Graduation Address

Alexandra Drane
Co-founder, ARCHANGELS

Conferring of Degrees

Jared Auclair
Dean, College of Professional Studies

Joe Griffin

Senior Associate Dean of Academic Affairs, College of Professional Studies

CPS EXCELLENCE AWARD WINNERS

Each calendar year, Northeastern University's College of Professional Studies recognizes the outstanding work and contributions of faculty and staff through its Faculty and Staff Excellence Award program. The awards are given to those who have gone above and beyond and demonstrated exceptional commitment to the College's mission and values. The awards are a way to recognize and celebrate the hard work and dedication of individuals who have helped make the College what it is today.

The Excellence in Teaching Award is open to all full-time and part-time faculty. This award recognizes those faculty who bring out the best in students by teaching courses with intellectually challenging and stimulating content, who seamlessly integrate the subject matter with experiential learning, and who encourage students to actively engage in the classroom discourse. Nominations for the Faculty Excellence Awards are made by currently enrolled students.

The Staff Excellence Award is open to all regular administrative staff and non-teaching faculty, while the Student Service Excellence Award recognizes primarily student-serving administrative staff and non-teaching faculty. Both awards recognize those employees who have embodied the mission of the College, surpassed their job duties, and exceeded expectations by positively impacting our learners' lives and contributing to their success. Nominations for the Staff Excellence Awards are made by CPS faculty, staff, and students.

Congratulations to our 2025 Service Excellence Award winners:

Dave C. Hagen

Excellence in Teaching – Full-time Faculty

Thomas Koperniak

Excellence in Teaching – Part-time Faculty

Meredith Haverty

Staff Excellence Award

Deniz Toker

Student Service Excellence Award

STUDENT SPEAKER

Undergraduate Student Commencement Speaker: Angie Arroyo - 10AM
Bachelor of Science, Finance and Accounting

Angie Arroyo is a determined leader, devoted mother, and first-generation college graduate. Raised in Brooklyn's Sheepshead Bay neighborhood, Angie is the eldest daughter of Chinese immigrants who taught her the value of hard work and sacrifice. After facing personal and academic setbacks early in her college career, Angie spent years working full-time across various industries; gaining firsthand experience in customer service, financial operations, and team leadership. In the last two years, she worked her way up from retail banker to store supervisor at TD Bank in Park Slope, Brooklyn.

As a full-time working mother, Angie returned to higher education through Northeastern University's College of Professional Studies, enrolling in the Bachelor of Science in Finance and Accounting Management program. She balanced her studies, career, and parenting responsibilities with grace and determination; bringing real-world insight to the classroom and inspiring her peers through example.

Understudy Undergraduate Student Commencement Speaker: Sam Taverna
Bachelor of Science, Information Technology

Sam Taverna, a Hull, Massachusetts native, graduates with a Bachelor of Science in Information Technology from Northeastern University's College of Professional Studies. With a background spanning engineering, product development, and community service, Sam has built an impressive resume that reflects both technical skill and a deep sense of purpose. At Northeastern, Sam completed impactful co-ops at Chick-fil-A and Delta Air Lines. At Delta, he enhanced voice response systems, built workforce planning tools, and strengthened the internship program through mentorship and networking initiatives. His early experience included operating a particle accelerator at Lantheus Medical Imaging and building cloud-based applications at Chick-fil-A.

Beyond his professional achievements, Sam remained active in his community; volunteering with the St. Joseph Society, tutoring at Mathnasium, and maintaining the website for Saint Joseph's Boston, a nonprofit celebrating Italian-American culture. A former three-sport varsity captain and proud graduate of Hull Public Schools, Sam blends leadership, grit, and heart. After graduation, he will join Delta Air Lines full-time in their Technology organization and plans to pursue law school to further merge strategy, empathy, and innovation in service of others.

Graduate Student Commencement Speaker: Kobe Miller - 3PM

Master of Sports Leadership

Kobe Miller is a native of Blenheim, New Zealand. As a dedicated member of Northeastern's Men's Rowing Team and a graduate student in the College of Professional Studies, Kobe has distinguished himself both in the classroom and on the water. Kobe came to Northeastern with a background in elite rowing, having represented New Zealand at the U23 World Rowing Championships. While pursuing his Master of Sports Leadership, he has become a mentor to fellow student-athletes, a trusted voice among his peers, and a passionate advocate for excellence in sports and education. Beyond athletics, Kobe took on a competitive co-op with the Boston Celtics, where he gained hands-on experience in professional sports management.

His time in Boston has been marked by a balance of academic success, athletic achievement, and community engagement; qualities that have made him a standout leader in his graduating class. With aspirations to compete in the 2028 Olympics and a long-term goal of coaching and mentoring the next generation of athletes, Kobe brings a global perspective, deep integrity, and a team-first mindset to every challenge.

Understudy Graduate Student Commencement Speaker: Pranav Chugh

Master of Sports Leadership

Pranav Chugh currently works for Major League Baseball's Data Operations team and the Boston Red Sox Tour Department. Whether at Fenway Park or supporting the Cape Cod Baseball League, he brings his lifelong love of baseball to every interaction, inspiring fans and peers alike.

Diagnosed with celiac disease at age six, Pranav turned adversity into advocacy. His early experiences navigating a world that often made him feel different became the foundation for a lifelong mission of representation and support. He has volunteered at the Children's Hospital of Philadelphia and served as a counselor at Camp Celiac, mentoring children who share his diagnosis.

After earning his undergraduate degree from the University of Miami during the pandemic, Pranav explored several career paths before finding his calling in sports. At Northeastern, he embraced every opportunity, from interning with youth leagues to networking at the Winter Meetings, and was inducted into the Chi Sigma Mu National Honor Society for academic excellence, leadership, and service. Originally from New Jersey and now proud to call Boston home, Pranav is training for the Philadelphia Marathon, fundraising for cancer research in honor of his father and late grandparents. Through his work, and advocacy, Pranav is committed to lifting others as he climbs; paying forward the support that has shaped his own remarkable journey.

GRADUATION ADDRESS

Alexandra Drane
Commencement Speaker

Alexandra Drane's 30-plus-year career as an entrepreneur, activist, and healthcare visionary is a testament to how technology and creative partnerships can build connections and uplift lives.

In 2000, she co-launched Eliza Corporation, a technology platform that conducts automated outreach to health plan members, providing them with tailored information, reminders, and inspiration. The platform also allows healthcare providers to better understand their patients and deliver improved care and support. Eliza programs experienced such impressive results that they caught the attention of the U.S. Centers for Disease Control and Prevention and Harvard Medical School. Eliza was eventually acquired by HMS Holdings Corporation, now Cotiviti, a company that uses data analytics to help healthcare organizations improve quality and engage members.

Drane next turned to an initiative with deeply personal meaning. Following her sister-in-law's untimely death from brain cancer at age 32, Drane recognized a glaring need to promote conversations that clarify end-of-life intentions. In 2008, she helped spearhead Engage with Grace, a simple, yet highly effective campaign that encourages people to communicate their preferences for end-of-life care with family members and caregivers.

Seven years later, Drane was diagnosed with a benign brain tumor. As she recovered from surgery, she thought deeply about America's unpaid caregivers, and in 2017 she launched Archangels to support this largely invisible, unsupported population.

The first iteration of Archangels struggled, but Drane's entrepreneurial spirit drove her to learn and forge on. She took a job as a cashier at Walmart, where she gained insights from colleagues caring for family members. Through those experiences, she realized support must meet caregivers where they are: at work. Archangels was reborn with a focus on helping organizations support their employees in caregiver roles—what Drane calls “the frontline of health.”

With Drane as co-founder and CEO, Archangels developed the Caregiver Intensity Index, a web-based tool that gauges stress levels. It also helps organizations connect caregivers on their staff with local resources, supplies a framework to translate caregiving responsibilities into job qualifications, and offers a Care Badge, a digital emblem recognizing unpaid caregivers. Archangels not only provides support, but also helps companies boost productivity and improve their top and bottom lines by designing data-driven support and engagement strategies. The index tool was used in a study co-authored by the CDC about mental health symptoms among unpaid caregivers during the COVID-19 pandemic.

A firm believer in the power of public-private partnerships, Drane gives generously of her time and expertise. She serves on numerous boards, including the Joint Commission

Resources Board of Directors, the RAND Social and Economic Policy Advisory Board, and the Trustee Advisory Board at Beth Israel Deaconess Medical Center. She's also a member of the Founders Council for the United States of Care.

Drane earned a Bachelor of Arts in economics from Tufts University.

ALMA MATER

Oh, Al - ma Ma - ter, here we throng, And
sing your prais - es strong; Your child - ren ga - ther far and near And
seek your bless - ings, dear; Fair mem - o - ries we cher - ish now And
will for - ev - er - more. Come, let us raise our voi - ces strong, North -
east - ern we a - dore.

The image shows a musical score for the song "Alma Mater". It consists of five staves of music in a single system. The key signature has three flats (B-flat, E-flat, A-flat), and the time signature is common time (C). The melody is written on a treble clef. The lyrics are written below the notes, with hyphens indicating syllables that span across multiple notes. The song ends with a double bar line on the fifth staff.

*Oh, Alma Mater, here we throng,
And sing your praises strong;
Your children gather far and near
And seek your blessings, dear;
Fair memories we cherish now
And will forevermore.
Come, let us raise our voices strong,
Northeastern, we adore.*
